

Supplementary Complaint-Type Mapping for NYC 311 Early-Warning Panel

This supplementary note documents the deterministic mapping from original NYC 311 complaint types to the nine analysis categories used in the main manuscript. The full 320-row mapping is provided in `tables/complaint_type_category_mapping_appendix.csv`. The full composition of the residual `other` category is provided in `tables/other_category_composition.csv`. These files include request counts and request-share fields computed from the NTA-matched 2015–2025 311 request corpus.

Category Summary

Category	Complaint types	Requests	Share
Housing	57	8,061,962	26.06%
Noise	9	6,713,922	21.70%
Parking/traffic	39	6,521,679	21.08%
Sanitation	36	3,090,901	9.99%
Infrastructure	28	2,673,125	8.64%
Public safety	38	1,597,023	5.16%
Water/sewer	10	1,212,939	3.92%
Environment	17	626,930	2.03%
Other	86	441,648	1.43%

Largest Complaint Types in Other

The `other` category is not semantically homogeneous. It is retained as a residual category for low-volume or cross-cutting complaint types and should be interpreted with caution.

Complaint type	Requests	Share of other
Encampment	191,408	43.34%
Drug Activity	93,873	21.26%
Animal in a Park	29,914	6.77%
Vending	27,575	6.24%
Electronics Waste	26,487	6.00%
Miscellaneous Categories	13,752	3.11%
Unleashed Dog	11,718	2.65%
DOF Property - Payment Issue	11,414	2.58%
DRIE	4,023	0.91%
Storm	3,003	0.68%
